

Challenge Selection

Title : Improve Everyday Life with AI (Challenge 3)

1.I have selected **Challenge 3: Improve Everyday Life with AI**

2.The goal is to design a simple AI-powered solution that improves daily life in India

3.My idea focuses on helping students manage their studies better using AI

Problem Statement & Solution

Title: Study Management Problem & AI Solution

Problem:

1. Students struggle to manage their study time effectively
2. They forget revision schedules and important tasks
3. Lack of proper guidance and planning affects performance

Solution:

- A **Study Helper AI App** that creates personalized study plans
- Sends reminders for daily tasks and revision
- Helps students track progress and improve weak subjects

User Journey (How it works)

Title: User Journey

1. User installs the Study Helper AI App
2. User selects class, subjects, and exam goals
3. AI automatically creates a daily study schedule
4. User receives reminders and notifications for study tasks
5. User tracks progress and improves performance over time

Features & Impact

Title: Features & Benefits

Key Features:

1. AI-based personalized study timetable
2. Smart reminders for revision and homework
3. Progress tracking dashboard
4. Subject-wise performance analysis

Impact:

1. Helps students become more organized
2. Improves study consistency
3. Reduces exam stress
4. Enhances academic performance
